
Generic security property
e.g. speculative non-interference,
a hardware–software contract
handwritten proof (in the proposing paper; sometimes exists)
Defense security guarantee
(leakage predicate)
e.g. protection set: memory;
leakage contract: (load, addr) transmitters;
execution contract: mispredicted branches
?
SimSpect (this work);
no prior method
Defense mechanism implementation
e.g. gem5 simulator prototype
Prior work
tests whether the implementation satisfies a generic property
